

Game Rules:

Roll the dice to move around the game board. If you land on a question you must answer it.

If you **get it right** you win a point which will be marked on your game card. If you **get it wrong** or you don't know It you must pass and player 2 can steal your point.

If you land on a ladder or a snake you must follow what the game board suggests (either moving up or down). The winner is the player who finishes with the most points.
